THE EASE OF ORDERING

The choice is yours: call 1-800-477-9283, fax 1-805-546-0330, drop your order in the mail, or buy on-line at www.ccs.com. We accept all major credit cards, checks—even by phone, money orders, or we can ship C.O.D. All the details are inside on the order form—any questions, ask away.

CCS.COM

Our web site is backed by 15 years of experience and know-how. As we continue to deliver top quality skateboard and snowboard goods, you can expect our web site to be just as helpful and informed as our knowledgeable sales staff. ccs.com is fully secure and is designed to make it as easy as possible to place orders and check stock. Click ccs.com, order today and skate better tomorrow.

CONTENT SHOCK?

We do our best to try and not carry graphics and designs that may be offensive to anyone. However, skateboarding has always celebrated the individual and has supported non-mainstream ideas. Please keep this in mind when looking through the catalog. We have tried to provide many choices in each product category so you can find something appropriate for you. If you have any questions on a graphic or design, call our sales staff.

We will be glad to help you.

SATISFIED WITH YOUR PURCHASE?

We sure hope so. If for any reason you're not, call our customer service department at 1-800-477-9283... we'll take care of you.

WHY SHOULD I BUY MAILORDER?

Well, here are a few good reasons that answer the question. Unless you live in California, there's no sales tax. No hassles. No need to drive or park. It's a free phone call and it's delivered quickly to your door. Now answer this question: Could it get any easier or more convenient?

DO WE HAVE IT IN STOCK?

When placing your order, our informed sales staff will let you know when you can expect delivery. If we are out of an item and we expect to get more, we will backorder it for you and ship it automatically when it comes in — charging you only when we ship.

CUSTOMER SERVICE & SALES HOURS

For your convenience, we have extended our Customer Service Hours. Our new hours are 5 a.m. to 10 p.m. PST every day. Sales operators are now available 24 hours a day each and every day.

SHIPPING

We try very hard to ship within 48 hours of receiving your order. So for some parts of the country, if you order on Monday, you could have your new stuff by the weekend. When you place your order ask your salesperson how long it takes to your town.

Trucks Silver \$33⁹⁸ pair, Colored \$37⁹⁸ pair (unless otherwise noted)

Trucks come in various heights and widths. Truck axle width should be closely matched to your deck width—or at least within 1/4 inch. Truck heights only differ by about 1/4 inch. If you use bigger wheels then you should either use higher trucks, risers, or both to avoid wheelbite (contact of wheel with deck).

Osiris G-Bag

Mobile Audio Transport System - The G-Bag from Osiris. Developed by the entire crew at Osiris, the G-Bag surpasses any and all bags in original concepts. It's a well constructed bag with multiple storage options and an urban sound system all-in-one. The bag comes ready for you to connect **your own** player of choice - CD, MD, tape, MP3, etc. to the built in amplifier (batteries for amp not included) that is connected to two built-in side mounted speakers. Turn the power on and have tunes while you skate, sit or stand.

Speakers: two super loud 8 watt, 8 ohm active speakers with durable metal screens and weather resistant speaker parts. They are connected to the amplifier by two cables that run through Velcro cable flags.

Amplifier: a 5 watt per stereo channel with loudness enhanced output has been mounted internally in a suspension pocket that keeps it from hitting the ground when set down. The amplifier can be run with 6 or 12 batteries depending on your preference or pocket money.

AC Adapter: two purposes. First, it is capable of charging rechargeable batteries (not supplied) and second, it powers the amplifier when the batteries are low or dead. Simply plug into your wall outlet for AC power and you're set.

A mini scion model CD case also comes with the purchase of your new G-Bag. Capable of carrying your CD player as well as 8 more discs, you can clip it to your belt or Velcro it to the shoulder strap for the ease of changing music without removing the bag.

Not just an original audio piece, the bag does not spare a single feature in regards to skateboarding. Able to carry a board with its large thermoplastic wear-resistant grip tape guards with a bottom weighted skateboard strap to adjust the load. Multiple accessory pockets with an 18 disc CD side pouch. Contour and padded shoulder straps with a sternum and waist straps provide excellent comfort with any movement.

The Osiris G-Bag with the urban sound system is built to be tough and handle heavy wear for a long time. However, the G-Bag comes with electronics and should be treated as you would any other electronics. **DO NOT THROW THE G-BAG AROUND, OR STEP ON THE SPEAKERS OR AMPLIFIER.** A warranty of 30 days against manufacturer's defects has been established by Osiris. This means that if anything breaks during this time period, it is not your fault (upon Osiris discretion). Improper wear and abuse will have to be covered by you, the now new owner of the G-Bag. Be sure to read the entire Owner's Manual before operating to understand all G-Bag specs.

Ronnie Creager

Never underestimate the shoe designed by Ronnie Creager. A suede-mesh combo gives the Creager a broken-in feel, so as soon as you get them you're ready to Rock. The double stitched rubber toe cap protects against flip trick wear. Reflective accents give a little "Bling" to the Creager. You can see comfort in his kickback style of skateboarding. So having a padded tongue and collar took care of those comfort zones. A polyurethane midsole and 'es' patented System 02 heel cushion keep all landings smooth. 400 NBS rubber outsole with zig-zag tread pattern are key. Sizes 3, 4, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#ES-R \$76.99**

Scheme

Profilin' in the Scheme is easy, this shoe oozes style. The color ways are poppin'. The upper is constructed from all synthetic materials. Exposed ollie bumps are stitched in place for increased durability. Hidden lace loops clean up the fraying mess that regular eyelets can leave. The stay-puff tongue and padded collar give flossin comfort, while elastic tongue-centering straps help with stability. Reflective accents throughout the shoe add a little "Bling Bling". While the light-weight polyurethane midsole and System 02 heel cushion keep the support you need when "throwin down." A 400 NBS rubber outsole with zig-zag tread pattern helps with the flick and stick method.

Koston 3

Eric Koston has always been ahead of the game, just like his K3. At first glance you're like, "What the?" But look, you'll see that *es* and Koston have done it again. This is probably one of the cleanest shoes out, but lots of thought went into the design. The K3's upper is one piece of embossed full grain leather or nubuck that wraps around the entire shoe. Covering the toe is an embossed polyurethane-coated synthetic rubber toe cap which is triple stitched for durability. It has hidden nylon lace loops and nylon tongue pull, so you can slip it on like a glove. The shoe is of lightweight and supportive strobel construction. Optimizing the cushion in the K3 is a combination of a lightweight polyurethane midsole and the System 02 heel cushion. The outsole is a 400 NBS zig-zag tread pattern that helps Eric do his Magic. We can't promise it will do the same for you. Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#ES-W \$89.99**

Rick McCrank

HEAD LINES: Red Dragon found Destroying everything in sight...What? Rick McCrank can destroy any terrain, so when he started designing a shoe from *es* they kept this in mind. The shoe starts with an all synthetic upper with ventilating mesh. The mesh is on the side panels, tongue and toe. The Abrasion protection system includes a triple stitched ollie and toe cap with thermoplastic underlays and hidden nylon lace loops. By adding foam padding in the tongue and collar you gain maximum comfort. The polyurethane midsole with System 02 provides lightweight performance and cushioning throughout the shoe. Key flex areas, and a low profile for good board feel, have all been developed into the shoe. Zig-zag tread pattern on the 400 NBS gum rubber outsole gives superior traction and board control. Sizes 5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#ES-M \$86.99**

Eric Koston

Eric Koston's first shoe design has got to be one of the best shoes out. A synthetic nubuck or action leather upper was used for its long wear properties, the toe cap is embossed and coated with polyurethane. Ventilating mesh on the upper was just the perfect amount for a superior flex. All the basics for a cush feel are there, elastic tongue-centering straps, double-padded tongue and collar with System 02 heel cushioning system. A polyurethane midsole and EVA footbed with removable arch support are a must for Eric's magic feet. Abrasion resistant 400 NBS super grip gum rubber outsole with zig-zag tread pattern are all that was needed for Eric "The Natural" Koston. Sizes 3, 4, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#ES-E \$79.99**

Mike Vallely

Mike V's shoe is tougher than nails. A durable synthetic nubuck combined with a mesh upper gives the exact flex and durability needed. The double stitched rubber toe cap can withstand all the beatings put out. And when you're ready to relax, a padded tongue and collar let your feet rest in comfort. When you're ready for round two, the polyurethane midsole with E-Bound shock absorbing air cushion will help you stand again. Defcon

One of the most underrated skaters around, Kanten Russell has been destroying demos and all sorts of terrain for years now. This shoe he's designed for Osiris, The Defcon, is also underrated. This shoe is powerful in design and can withstand the constant punishment you are used to giving. The upper is synthetic nubuck with breathable mesh. The toe is a PU coated embossed synthetic nubuck and air hole detail on the toe keeps your feet dry. 3m trim can be found on the toe and side panels. Flexpoint westside construction and a medium density padded tongue help to stabilize lateral movement. A lightweight PU stabilizing midsole with the anti-shock Dubla insole from S-One, and the Airlight fullwrap anti-impact system reduce shock tremendously. The Supagrip rubber outsole is perfect for board control, on lets say a backside 360 off a concrete hip and over a 6 stair handrail to flat.

Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14.

D3

The D3 is another strong design by Osiris and Dave Mayhew. The underlay of the toe is nubuck or action leather. To reinforce durability on the toe, it was capped with a triple stitched high abrasion resistant endura thermo plastic rubber. The tongue is contour padded and super dense for max comfort. Laces are protected by a combination of PVC/TPR super loops and backup metal eyelets. A lightweight polyurethane midsole with durable heel side impact airbags keep your foot well protected. The rubber arch support and lightweight PU stabilizing midsole are perfect for long sessions on any terrain. A Supagrip rubber outsole helps Dave Mayhew stick all those tricks he has in his tech file. Sizes 3, 4, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14.

Reflective accents are found throughout, adding unique aesthetic detailing.

Attax

Attax! are made of synthetic nubuck or an action leather upper. Sectioned mesh on the side paneling and tongue give flexibility to the Attax. Breathable mesh has been utilized with the anti-slip heel cup, limiting heel lift and providing better ventilation. The high density padded tongue is comfortable. With a hidden stash pocket in the left shoe only, you can carry your emmm...change so you can buy a soda after a long session. An embossed polyurethane coated synthetic nubuck toe cap was used for its abrasion resistance under long wear. Full length polyurethane midsole with anti impact system in the heel area and an S-One insole provide excellent lightweight protection against heel bruising. Of course you need a Supagrip rubber outsole which can only be found on Osiris shoes.

Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14.

DC Shoes Women's Dash

Women's Dash Representing Women's skateboard innovation, DC introduces the Women's Dash. Built on a women's last the Dash uses cut and buff construction techniques inspired by running shoes, the ultra-light midsole is trimmed to conform to the shape of the footbed, then bonded to the flexible rubber outsole. Rubber is also used where reinforcement is most needed such as the ollie sidewall, toe and heel. Multiple layers of durable action leather or split suede create a tough and durable upper with the toe box retains strength from its triple stitch construction. Internally the Dash contains elastic tongue centering straps, a foam padded mesh tongue and internal lining, all of which reduce weight, and maximize comfort and stability. Sizes: 5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 11.
